## **Call for submissions**

The Department of Children and Youth Affairs is preparing a Statement of Strategy to cover the period 2020-2022. The Department leads the formulation and co-ordination of policies to improve outcomes for children, young people and families. We provide policy, performance, legislative, planning and governance support to the Minister in order to ensure delivery of services within available resources and in accordance with Government policies. This must be done in a way which gives people fair access to services and other supports which meet their needs.

We are pleased to invite interested parties to submit their views on the shape and content that the new Strategy should take. The Statement will set out our high level goals and objectives as well as the strategies to be used to achieve them. The Statement will also provide information on how we will monitor progress in achieving our goals by identifying measurable outputs, outcomes and performance indicators.
